

MILAN HILL STATE PARK FIRE TOWER, MILAN

EXISTING CONDITIONS: PANORAMA

TECHNICAL INFORMATION

	EXISTING	PROPOSED
TRANSMISSION LINE	115-kV structure type	Wood H-Frame (not visible)
	Height range of visible 115-kV structures	43 feet (not visible)
	320-kV structure type	N/A
	Height range of visible 320-kV structures	N/A
	Right-of-way width	N/A

PHOTOGRAPH	Date and time: 10/1/14 at 11:45am	Location: 44.572272° N, -71.223219° W	Viewing Direction: Northwest
	Distance to visible structures: 4.67 miles	Number of transmission structures visible in the photosimulation: 1	
	Camera Focal length (50mm equivalent): 35mm	Camera Make/Model: Nikon D7100	Photo Source: TJD&A

NOTES

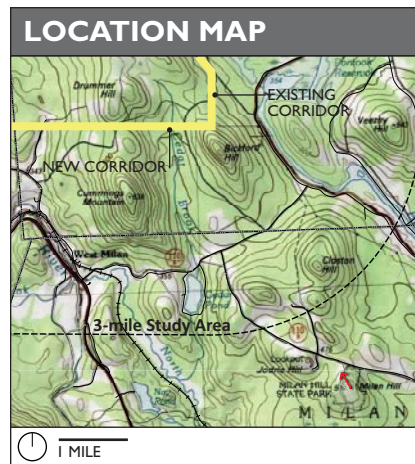

GENERAL NOTES
Simulation is based upon preliminary design plans. Structure design and location will be finalized during the detail design and permitting process.

PHOTOSIMULATION PRODUCTION
By Terrence J. DeWan & Associates. Published July 23, 2015.

VIEW DESCRIPTION
View from the top of the Milan Hill State Park Fire Tower.
